WANTED.....IMPORTANT.....Someone to make a "Map Study" of the Geographical location of each member...With the thought of locating a more centrally located meeting place...Might attract more members to our meetings...How 'bout it.....any volunteers...?

PRESIDENT'S PAGE

I haven't read or seen this Corvairsation yet, but my guess is that you'll notice that it's a little different this time. I don't know if you'll find it better or worse, but I do know that you'll find that as each month goes by this publication will get a little better. The reason? A new Corvairsation editor.....not that the old one was bad, but new blood is always good and when I say new blood that's just what I mean. Lee Miller is not only the new editor but he's also new to the club. He's had previous experience at doing editor's work and to top it all off he used to be a Chevrolet employee and has rubbed shoulders with such greats as Ed Cole. You'll find more about him elsewhere in the issue.

Due to the fact that several board members were out of town, this month's board meeting was cancelled. I apologize if I was not able to contact anyone who showed up any way. I tried, honest!

You may remember from last meeting a nice fellow by the name of Steve Lubliner from the San Diego club. Steve has offered to give us a presentation on a very interesting topic at next month's meeting. It promises to be very interesting for guys and gals as well. I'm not going to reveal what it will be, so if you want to know you'll just have to show up.

I haven't heard much feed back on the program we had at the last meeting. If you'd like to see things like that as an addition to our meetings, make comment and we'll try our best to make things happen.

For all of that I won't be seeing at our next meeting, have a happy Thanksgiving. For those of you who will be at the meeting, go ahead and have a happy Thanksgiving also!!
